

Attention for Lighting

No power adapter is included in the package. This product only works with **5VDC power adapters**. A power adapter of **5VDC 2A or above** is recommended.

Purchasing **multiple display cabinets**: Avoid connecting multiple cabinets to different USB ports on the same power hub.

Important Note:

Using the one USB power hub for multiple cabinets or other devices (like phones) may cause power overload or uneven voltage, leading to flickering, abnormal brightness, or instability. **It's recommended to use a separate power source for each cabinet.**
